## 2000-2001

*A Call To Greatness*

UNIVERSITY OF KENTUCKY

---

# UK VALUES

The values of the University guide our decisions and behavior. We value:

- *academic excellence and freedom;*
- *personal integrity;*
- *the creation, synthesis, application, and teaching of knowledge;*
- *lifelong learning;*
- *the success of our students;*
- *the personal and professional development of our faculty and staff;*
- *mutual respect and collaboration;*
- *cultural diversity and human dignity;*
- *personal and institutional accountability;*
- *service to local, state, national, and international communities; and*
- *the continuous improvement of our programs and administrative processes.*

-- UK Strategic Plan, adopted by  
the Board of Trustees, May 1998

---

# January 2001

I am pleased to provide you with this fact booklet, which contains a brief summary of the University of Kentucky's 2000-2001 Operating and Capital Budget; a profile of current facts about enrollment, retention, degrees conferred, tuition and fees, faculty salaries, external support, the staffing complement, library collections, land and space, equipment, and the status of new facilities. Also included is information about our administrative organization and history and lists of our benchmark institutions and members of the Board of Trustees.

The University of Kentucky entered the new millenium during one of the most exciting and successful time periods in its history. During the past year we continued our quest to become a top-20 public research institution. Bolstered by the successful matching of \$66.7 million in the Research Challenge Trust Fund-Phase II program, which resulted in \$133.4 million to support endowed chairs, professorships, fellowships and research activities, the University began its pursuit of a second \$133.4 million through Phase III (RCTF-III) of the Research Challenge Trust Fund program. As of November 2000, gifts and pledges to be matched by the RCTF-III program totaled over \$40 million, and the number of endowed chairs and professorships had increased to 73 and 143, respectively. Through the generous support of our friends and benefactors, we have been able to maximize the funding made available through the RCTF program, and I want to take this opportunity to

thank them once again for supporting our vision for the future, our resolve to achieve our mission and goals, and our commitment to a better quality of life for the citizens of the Commonwealth.

Our vision, our resolve and our commitment helped us to forge a new challenge for the University during the past year, as we kicked off the first-ever major fundraising campaign in UK's history. In September 2000, we announced with tremendous pride and anticipation the capital campaign, *A Call to Greatness*, with a goal of raising \$600 million over the next five years to support faculty and students, academic excellence, UK Libraries, public service and new and renovated facilities. At the time of the announcement - with over \$300 million in gifts and pledges, we were more than halfway there. Clearly, the faculty and staff, the alumni, and the friends of the University are doing their part to help propel UK into the top echelon of public research institutions. It is my earnest and sincere hope that the Governor and General Assembly will take heed of these efforts, acknowledge the strength of our resolve and commitment, and make the decision to provide the high, sustained level of state support necessary to accelerate the progress of the University of Kentucky in its quest for greatness.

The summary information provided in this fact booklet will assist you in gaining knowledge and understanding of the progress being made by the University of Kentucky. We are maintaining a stable, richly diverse enrollment at the University, while increasing enrollment significantly and maintaining open access for the Bluegrass Region at Lexington Community College (LCC). The number of African-

---

American students at both the University and LCC reached all-time highs in fall 2000; retention rates have improved; and the number of doctoral and first professional degrees conferred also reached all-time highs in 1999-2000. In addition to enrolling, teaching and graduating students, the faculty and staff have set new records every year for the last four years in the amount of external grants and contracts awarded. Through the Research Equipment Replacement Pool program, we were able to increase research equipment inventories at the University by nearly 18 percent, thus encouraging continued progress in this area so critical to the economic growth and prosperity of the region and state.

New facilities now under construction - Aging/Allied Health, Agricultural Plant Sciences, Mechanical Engineering and the Seaton Center Addition/Renovation –will provide much needed space for our teaching, research and service programs. Patient care facilities under construction will support our efforts to ensure high quality health care for people throughout the Commonwealth. Of the several projects in planning and design, we are anticipating with much enthusiasm the development of the Biomedical Sciences Research Building. This facility is essential to our quest, and I am convinced that the productivity of the University's research engine will be enhanced significantly with its completion.

The progress of the University of Kentucky is the result of the support of the state legislature, the generosity of University supporters in the private sector, and the tireless efforts of our faculty and staff. We are grateful and appreciative of that support. Yet, we have much more to accomplish. In the last year faculty salaries at

the University and LCC fell in comparison to our benchmark institutions. The 2000-01 Operating Budget included a special state appropriation of \$521,700 for LCC which should improve their comparative position for faculty salaries. However, we anticipate that University faculty salaries for 2000-01 will once again fall behind in comparison to our benchmark institutions. Other extremely critical areas for your consideration include the desperate need for space at Lexington Community College; the rapidly increasing cost of providing health care benefits to the University community; and the continuing surge of new technological developments that fuel our instruction, research and administrative equipment needs.

The University of Kentucky is engaged with individuals, businesses and agencies, in every county, and in every way possible in fulfilling its mission as Kentucky's premiere, land-grant research institution. We are dedicated to developing an educated citizenry, a prosperous economy, and a safe and healthy environment for generations to come. We invite you to join us in our dedication –to share our vision, our resolve and our commitment to a better life for all Kentuckians –now and in the future.

Sincerely,

Charles T. Wethington, Jr.  
President

We aspire to enhance the University of Kentucky's stature  
as one of the nation's great universities:

*an institution recognized nationally and internationally  
for excellence in teaching, research, and public service, and  
a sustaining resource for the intellectual, social, cultural,  
and economic development of the Commonwealth.*

--UK Strategic Plan,  
adopted by the Board of Trustees,  
May 1998

---

# UK MISSION

The University of Kentucky is a comprehensive, public, land grant university dedicated to preparing students for an increasingly diverse and technological world, and to improving the lives of people in the Commonwealth, the nation, and the world through teaching, research, and service.

- *Our instructional mission includes undergraduate, graduate, postgraduate, professional, and lifelong education informed by scholarship and research, and guided by a spirit of integrity and mutual respect.*
- *Our research, scholarship, and creative activities promote human and economic development through the expansion of knowledge and its applications in the sciences, social sciences, arts, humanities, business, and the professions.*
- *We have a unique responsibility for outreach and public service to support the citizens of the Commonwealth. We collaborate with our educational, professional, business, healthcare, and agricultural partners here and abroad to disseminate, share and apply knowledge.*

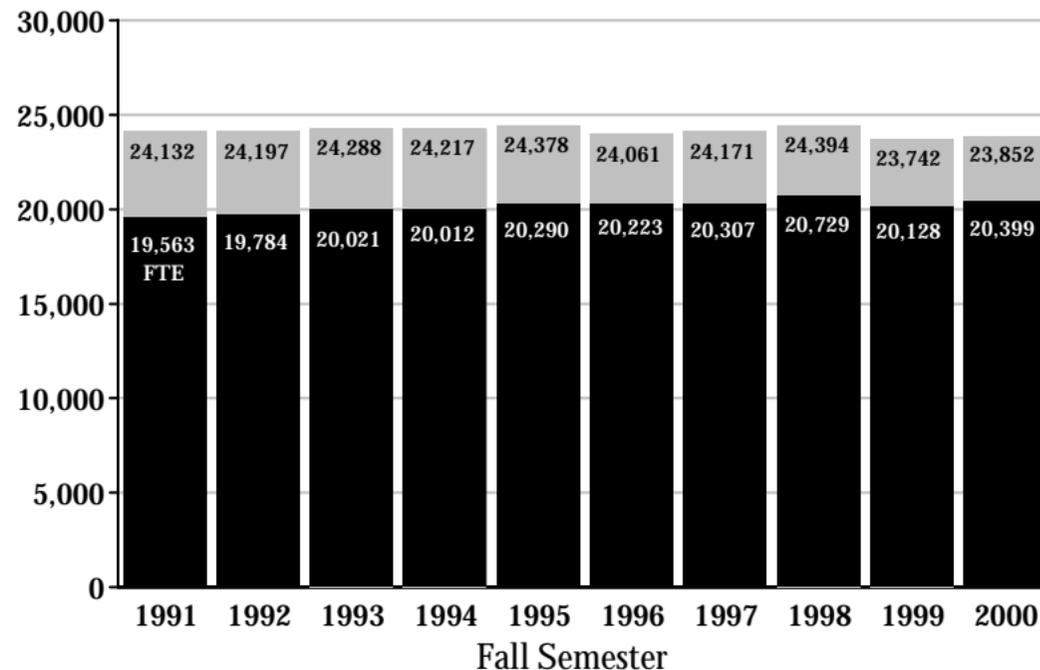

--UK Strategic Plan, adopted by the  
Board of Trustees, May 1998

Ford Research Center and Public Archives; the Bert T. Combs Appalachian Collection, including the Appalachian Regional Commission Archives; and the W. Hugh Peal Collection of 19th century English and related literature. The library is a regional depository for U.S. government publications and is also a depository for European Communities and Canadian publications, British Parliamentary Papers, Kentucky government publications, and technical reports from federal agencies, all selectively collected. Numerous CD ROM and on-line databases are accessible in the main and branch libraries. Library sites include the William T. Young Library and 15 branch libraries. The Voyager library system provides an on-line catalog for the holdings of all University libraries.
